# Ladybug Adds 1 - 5

Use counters to find the value of the math equations.  
Place counters on each side of the ladybug to represent the different values for the numbers in the equation.  
Count to find the total number and write it in the box below.

$$\begin{array}{l} 3 + 2 = \boxed{\phantom{00}} \\ 1 + 4 = \boxed{\phantom{00}} \\ 1 + 3 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} 2 + 2 = \boxed{\phantom{00}} \\ 3 + 1 = \boxed{\phantom{00}} \\ 2 + 3 = \boxed{\phantom{00}} \end{array}$$

# Ladybug Adds 5 - 10

Use counters to find the value of the math equations.  
Place counters on each side of the ladybug to represent the different values for the numbers in the equation.  
Count to find the total number and write it in the box below.

$$\begin{array}{l} 3 + 2 = \boxed{\phantom{00}} \\ 2 + 4 = \boxed{\phantom{00}} \\ 8 + 2 = \boxed{\phantom{00}} \end{array}$$

$$\begin{array}{l} 6 + 2 = \boxed{\phantom{00}} \\ 3 + 4 = \boxed{\phantom{00}} \\ 7 + 1 = \boxed{\phantom{00}} \end{array}$$
